BRIGHTPATH TECHNOLOGIES

Frontend Developer

Craft fast, accessible, and delightful user interfaces for our web platform.

Department:	Engineering	**Location:**	Remote / Hybrid
Employment Type:	Full-Time	**Experience Level:**	2-5 Years

Role Summary

We're looking for a Frontend Developer who is passionate about building polished, performant user interfaces. You'll work closely with designers and backend engineers to turn product requirements into responsive, accessible web experiences used by thousands of customers daily.

Key Responsibilities

- Build and maintain reusable UI components using React and TypeScript.
- Translate Figma designs into pixel-accurate, responsive layouts.
- Collaborate with backend engineers to integrate REST/GraphQL APIs.
- Optimize application performance (bundle size, load time, rendering).
- Write unit and integration tests to ensure UI reliability.
- Participate in code reviews and contribute to frontend architecture decisions.
- Ensure cross-browser compatibility and WCAG accessibility compliance.

Required Qualifications

- 2+ years of professional experience with HTML, CSS, and JavaScript.
- Strong hands-on experience with React (or similar frameworks like Vue/Angular).
- Proficiency with TypeScript and modern build tools (Vite, Webpack).
- Solid understanding of responsive design and cross-browser issues.
- Familiarity with version control (Git) and collaborative workflows.

Preferred Qualifications

- Experience with Next.js or other SSR frameworks.
- Knowledge of state management libraries (Redux, Zustand, Recoil).
- Exposure to design systems and component libraries (Storybook).
- Understanding of web performance profiling and Core Web Vitals.
