BRIGHTPATH TECHNOLOGIES

Machine Learning Engineer

Build and deploy ML models that power intelligent product features.

Department:	AI / Data Science	**Location:**	Remote / Hybrid
Employment Type:	Full-Time	**Experience Level:**	3-6 Years

Role Summary

We're hiring a Machine Learning Engineer to design, train, and productionize ML models that drive core product capabilities. You'll work across the full ML lifecycle - from data pipelines and experimentation to deployment and monitoring in production.

Key Responsibilities

- Develop, train, and evaluate machine learning models for product use cases.
- Build data pipelines for feature engineering and model training.
- Deploy models to production using MLOps best practices (CI/CD, monitoring).
- Collaborate with data scientists and engineers to translate research into shippable features.
- Monitor model performance and retrain/tune models as needed.
- Optimize inference latency and resource usage for production workloads.
- Document experiments, model cards, and evaluation metrics.

Required Qualifications

- 3+ years of experience building and deploying ML models in production.
- Strong proficiency in Python and ML frameworks (PyTorch or TensorFlow).
- Solid understanding of statistics, probability, and core ML algorithms.
- Experience with data manipulation libraries (Pandas, NumPy) and SQL.
- Familiarity with model deployment tools (Docker, REST/gRPC serving).

Preferred Qualifications

- Experience with LLMs, embeddings, or generative AI applications.
- Familiarity with MLOps tooling (MLflow, Kubeflow, SageMaker).
- Knowledge of distributed training and GPU optimization.
- Background in a relevant domain (NLP, computer vision, recommender systems).

Skills Required

• Python	• PyTorch	• TensorFlow
• Scikit-learn	• Pandas	• NumPy
• SQL	• Docker	• Git
• MLflow	• AWS/GCP/Azure	• Spark
• Jupyter	• REST/gRPC	• Kubernetes
• Airflow	• Linux	• Statistics

What We Offer

- Competitive salary and equity package.
- Flexible remote/hybrid work arrangement.
- Health, dental, and vision insurance.
- Compute/GPU budget for experimentation and conference/learning stipend.
- Generous paid time off.

To apply, submit your resume and portfolio/GitHub (if applicable) to careers@brightpathtech.example. BrightPath Technologies is an equal opportunity employer.
